DETAILED ACTION

The Office Action is in response to amendment filed February 21, 2006. The rejections of this application have been withdrawn due to a restriction requirement (Examiner should have raised the issue of restriction and takes this opportunity to correct her position by raising the issue of restriction). Claims 1-20 are presented for Election/Restriction.

Election/Restrictions

I Claims 1-8, 16-20, drawn to a network and method for operating a network for the interconnection of computers having a server and client, classified in class 709, subclass 203.

II Claims 9-15, drawn to an interpreter for a network, classified in class 717, subclass 139.

1. The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions II and I have separate utilities such as a gateway configured to set up data connection to logical or physical system. See MPEP § 806.05(d).

2. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).
